

Our Guests and Clients Experience the "Clean SEAT"

SEAT Planners has developed "Clean SEAT" guidelines that meet or exceed current CDC recommendations for the travel and event industry. "Clean SEAT" guidelines will be updated in accordance with new CDC developments and our client's wishes.

PROTECTION

SEAT Planners partners with local operators that ensure drivers are healthy and symptom-free by temperature checks and a recent medical history before leaving the operator's yard. Drivers will clean high-touch areas throughout the day using recommended personal protective equipment (PPE) and EPA/CDC disinfectants. Drivers will also wear disposable gloves when handling personal items such as luggage.

PREVENTION

Staff, vendors and guests are encouraged to participate in safety measures by practicing personal safety guidelines set by the CDC considerations for travelers. Policies will be updated in correspondence with the CDC and State's Policy.

COMMUNICATION

SEAT Planners will train and communicate Covid protocol to all staff and vendors.

All Staff and Vendors will be trained in:

-  Covid-19 protocol communicated and agreed upon with client
-  SEAT to contract with vendors that meet or exceed "CLEAN SEAT" expectations
-  Staff trained on "CLEAN SEAT" guidelines during staff briefings specific to show
-  Inform passengers verbally and on shuttle schedule to expect limited boarding capacity on buses when applicable.
-  Signage to direct guests to social distance in queuing lines when applicable
